

## Internship description:

### Product Design Internship

The intern will work alongside the Manettas/ShoreTrade Product Managers. Our Product Managers are responsible for the design and management of features on ShoreTrade. This involves scoping out new features, improving current app functions, reviewing all development updates and liaising with contracted project managers.

Company name:

Peter Manettas Seafood Pty Ltd

Location:

Pyrmont

Company description:

Manettas Seafood Market is an Online & Interactive seafood marketplace. Our state-of-the-art online store allows you to have access to the freshness and variety of the seafood market without leaving home.

### ShoreTrade

Online marketplace for seafood connecting buyers and sellers directly to each other.

Since its inception ShoreTrade has looked at the global supply network of seafood and formed a view of how to sustainably attack and target distribution of seafood across multiple countries through South East Asia whilst being able to help instil more sustainable fishing ecosystems globally.

## Internship details:

Start date:

21-Nov-22

Finish date:

23-Dec-22

Number of days per week:

5

## Duties and responsibilities:

Designing out test flows for new features  
Testing features in a staging environment  
Planning updates for Production and re-testing.  
Tasking developers with action items for fortnightly sprints  
Creating tickets for any new bugs in both Production and Staging environments  
Manage current development timelines  
Work alongside UI designers to ensure designs meet functionality requirements.  
Plan future projects and updates to ShoreTrade Web, Mobile Web and Apps.

### Desirable attributes:

Strong Problem Solving Skills- to design out features with the broader picture in mind, so that updates are scalable for the future.  
Quick and Decisive Thinking- Bugs can cause the applications to come to a standstill, and need to be able to quickly determine the best fix.  
Good Communication Skills- Liase with multiple contractors and developers, communication needs to be clear and concise.  
Analytical Skills - To be able to easily determine errors through common sense and basic maths. When that is not enough, being able to analyse and pin-point the cause of an error is crucial.

### Application process

Please prepare a resume as well as a covering letter stipulating your interest in the above internship and your suitability for this role.

Submit your application in a Word or PDF format to Skye Barry, Ascham Community Relations Manager, via email at [community@ascham.nsw.edu.au](mailto:community@ascham.nsw.edu.au)

The resume should include:

- Any relevant work experience
- Current and past tertiary courses of study
- A minimum of two references (employment references are preferred but not essential)
- Contact details
- Availability for the role in 2022/2023.

Shortlisted candidates will be contacted by the host company.

Remuneration, timing and 2022 commencement date for the internship will be negotiated directly between the successful candidate and host company. Please note the internship is first and foremost a learning experience. The benefits of the opportunity afforded to the intern will be considered in the remuneration.

**Applications close 12 August 2022**
